

- 1** The lengths of the leaves of a particular type of tree are normally distributed with mean μ cm. The lengths, x cm, of a random sample of 12 leaves of this type are recorded. The results are summarised as follows.

$$\Sigma x = 91.2 \qquad \Sigma x^2 = 695.8$$

Find a 95% confidence interval for μ . [4]

This image shows a full page of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page, typical of notebook or legal stationery. There are no margins, text, or other markings on the page.
